

Product sheet – Chrysal Easy Dip

General

- Hydration stimulator for cut flowers.
- For use throughout the floral chain to give flowers a hydrating boost.
- Application before use of Chrysal conditioner.
- Helps to “open” stems to allow maximum uptake of Chrysal Professional 2 or any other Chrysal conditioner.
- Ready-to-use solution.
- Available in 1 gallon jerry cans.

Effects

- Supports optimum hydration enabling improved uptake of Chrysal conditioner.
- Better hydration results in reduced incidences of “bent neck” and increases ornamental value.
- Chrysal Easy Dip improves maximum flower freshness throughout the floral handling chain and allows for higher flower quality for consumers.

Applications

- For use by growers, bouquet manufacturers, florists and supermarkets.

Recommendations

- Store under cool and dark conditions, preferably between 41°F and 77°F / 5°C and 25°C.
- Shelf life: 24 months in sealed packaging and stored under the right conditions.
- Instructions for use:
 - ◇ Add Easy Dip into a container, sufficient for the stems to be dipped into 5cm / 2” of solution.
 - ◇ Quickly dip into solution.
 - ◇ For maximum impact, following treatment, immediately place your flowers in a Chrysal conditioning solution.
- The solution can be used for 1 day only, or sooner if it becomes dirty or discolored. Avoid using a cloudy solution.
- Do not mix residual solutions with freshly made ones.
- Do not use in unprotected metal buckets or vases (zinc, copper, iron).
- Residual solutions may be drained into the sewer system.
