

## Product sheet – Chrysal OVB

### General

- Post-harvest product for Gypsophila and other summer flowers.
- Treatment with Chrysal OVB is obligatory in the Netherlands for some flowers in supply to the auction.
- Available in 5 L cans.

### Effects

- Stimulates water uptake.
- Maintains leaf and flower quality.
- Prolongs vase life of flowers.

### Applications

- Suitable for all types of water.
- Can be dosed automatically.
- For use by growers and during transport.

### Savings

- Reduces flower wastage.
- Prolonged distribution and sales period possible.

### Recommendations

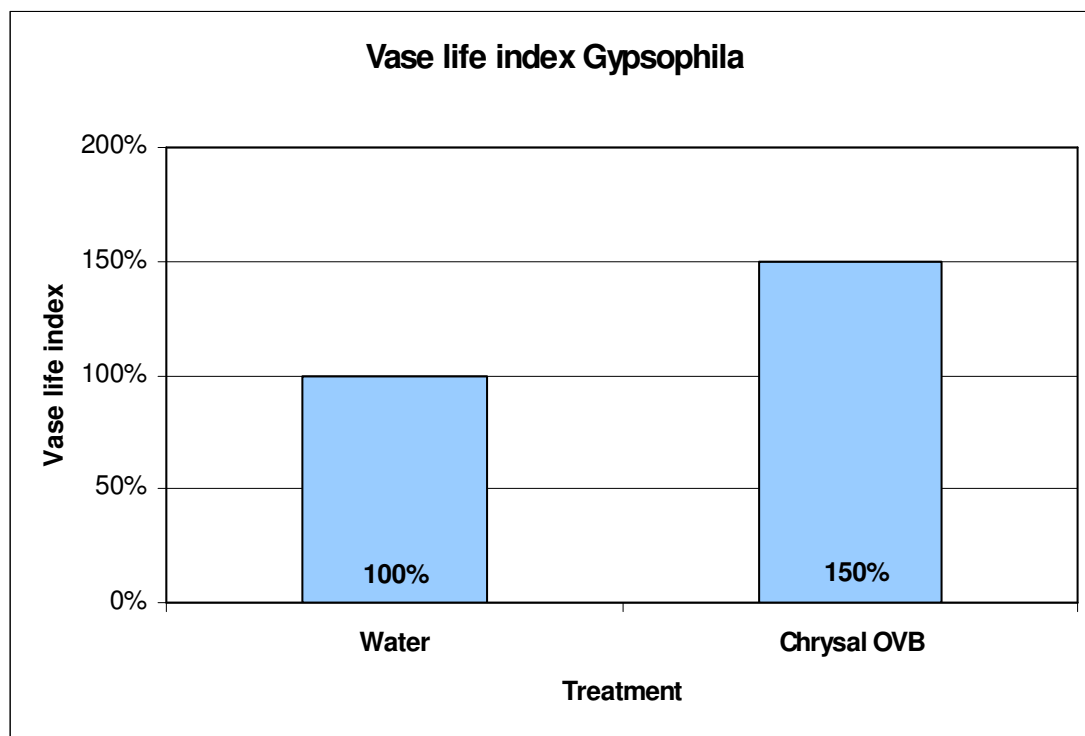

- Store under cool and dark conditions, preferably between 5°C and 25°C.
- Shelf life: 36 months in sealed packaging and stored under the right conditions.
- PH of the ready to use solution: 7 – 8.
- Dosage: 3 ml per litre of water. To encourage immature buds to flower add 30 g of sugar per litre of solution.
- Solution can be re-used for a maximum of 1 week. If sugar is added, the solution can be re-used for a maximum of 3 days.
- Do not mix residual solutions with freshly made ones.
- Residual solutions may be drained into the sewer system.

### Test Results

The following graph shows the effect of Chrysal OVB on the vase life of Gypsophila compared to water alone.

### Vase life Gypsophila

Treatment: water  
Total vase life: 8 days  
Photo taken: day 12

Treatment: Chrysal OVB  
Total vase life: 12 days  
Photo taken: day 12
